

I come from Vietnam but Australia is now my home. It is a beautiful place to live. It has a hot summer and a cold winter. In summer time, it is very hot. I like to go camping, fishing, swimming, bushwalking and sleeping under the stars.

But when winter comes, the weather starts to change to cold and raining. I feel extra cold because this is the first time I have lived in a country during winter. In my old country it is very hot and we do not have winter so this is very different for me.

When I started at my new school everyone welcomed me. They are all very good friends and they all help me.

Australia has got a lot of space to play and you can grow your own vegies. The thing I like best is the Botanical Gardens in Wagga. I like to play in the playground and it has got a lot of animals in the zoo. My favourite animal is the kangaroo.

Australia is a wonderful place to live. Australia is my second home.

I LOVE AUSTRALIA.
