

GROWING UP IN AUSTRALIA

Growing up in Australia is fun because we go to the footy and cricket. I like to play cricket because it is fun.

I live in Matong. It is a small town there is a lot of paddocks and everyone is friendly. In Australia there are lots of things to do like going bush walking, fishing and camping.

Matong School is awesome. My favourite part is the sport because the variety is huge such as cricket, footy, hockey and soccer. The maths is usually hard but I still enjoy doing it.

I love growing up in Australia.
