

Growing up in Australia is great.  
Rivers flowing peacefully down the valleys.  
Orange trees growing in the beautiful breeze.  
Wind blowing like a charm. It blows my hay off  
for fun  
I'm glad I live in Australia its good.  
Nan's house is the best because I can play  
with the recycled boxes.  
Going to the coast for a holiday I love to go  
snorkelling.

Under the water you can see lots of fish  
swimming by.  
People always going down to the park  
because its fun playing on the swings.

Itchy mozzie bites after a swarm of mosquitoes  
have stung you.  
Nice people living in Australia set welcome party's  
when you're new.
