

GROWING UP IN AUSTRALIA

Going down to the dam on a typical summer's day in Australia
Ridin' down to Pop's on my motor bike to grab some snags and
rissoles to cook on the barbie

Other people comin' round from I don't know where to attend
the Grongy rodeo

"Would ya just be quiet" - the cocky wakes me up 5:00 a.m.

"I love the rain but I think Mother Nature has gone a bit too far
this time!" says Nan

Nan and Pop's is the best place to ride the four wheeler
Going down the slip'n'slide when the dam is dry

U are always so busy on our farm with a decade of drought and
now the rain has washed us out

Pop and Dad's shearing shed is heaps of fun

Inside the WB is probably the coolest place to be in summer
Nan has the best cookin' in the world

All right - get in the ute and don't forget Mollie, the dog
Uncle Mat's ski boat is loads of fun out on the Five Mile
Swarms of mozzies bite ya' on a stinkin' hot day

Thousands of mozzies and flies are all around the lush wet areas
Road after road get to the pool if ya' wanta' get cool

A walk in the bush on a beautiful morning is a refreshing thing to
do

"Lush and wet - it seems living in the Tropics," says Pop
I absolutely love living on this continent

And there are lots of fun activities to do in Australia
